Stormwater

Project-Based Learning:
Design and Build a Rain
Garden

Part 1: Rain Garden
Proposal

NATURE
WORKS
EVERYWHERE

PRESENTED BY
The Nature
Conservancy 

How does stormwater move in an environment?

- The following slides depict different environments after a rainstorm.
- Stormwater is the surface water that results from rainfall.
- Look at the images and consider how the environment affects the behavior of stormwater.
- Brainstorm the consequences of these different stormwater scenarios.
